This \$100 million global promotion is fully funded by Amazon to connect customers with local small businesses selling in its store.
- More Small Businesses Than Ever Before: This year, more than 300,000 sellers globally are eligible for the promotion more than twice as many as last year giving customers more opportunities to support small.
- Prime Day Deals: Once Prime Day begins, members can use their £10 credit to purchase almost any product in Amazon's store, including from small businesses. More than half of the items sold in Amazon's store in the UK are from third-party sellers mostly small and medium-sized businesses.
- Curated Storefront: To make it easy for customers to support small businesses this Prime Day, Amazon has curated collections to connect customers with small businesses at co.uk/supportsmall
- Shop Small Businesses with Alexa: Echo device owners in the UK can say "Alexa, shop small business" to discover products eligible for the Spend £10, Get £10 promotion.

Tens of thousands of UK-based small and medium-sized businesses sell their products in Amazon's stores across the world and Amazon provides practical support and services to help them grow. More than 60% of UK businesses selling on Amazon export to customers all over the world. Last year they achieved total export sales of more than £2.75bn and supported more than 85,000 job opportunities in the UK. Last year also saw the launch of the Amazon Small Business Accelerator with Enterprise Nation, the small business support network, to help 200,000 small businesses and startups across the UK respond to the impact of the pandemic and lockdown with online learning, bootcamp events, and access to free services, credits,

training and support.

"We launched our business through Amazon a couple of years ago. It was so much easier doing it this way, as you have the equivalent of an in-house customer services team, marketing and fulfilment support all in one place. Without Amazon we would not have been able to grow and export to new markets along the way." Said Andy Jefferies, co-founder Dock and Bay. "Prime Day is an important moment for us as it brings new customers to our business and has previously helped to increase sales tenfold. It's not just the exposure you get during the event – it allows us to grow once Prime Day is over. This year the small business promotion in the run up to Prime Day also means we can deliver more products as the weather warms with more people then talking about Dock & Bay!"
